INTRODUCTION

The Ice Age is coming to an end! The ice dam is melting, and a pair of sinister aquatic reptiles—Maelstrom and Cretaceous—have shown up to speed things along. Take control of three unlikely friends—Manny, Sid and Diego—and guide them through a series of unique puzzle-laden environments to rescue stranded animals. In between these levels, you can help Scrat collect all of his acorns in special high-speed Scrat Rush challenges.

Manny, Sid and Diego start the big migration of mammals from “The Waterpark” to the far end of a wide valley where a fallen sequoia tree serves as an escape for the fleeing population. Along the way, the trio meets another mammoth, Ellie, and her two mischievous possum “brothers”, Crash and Eddie, who decide to join in the adventures.

PLAYING THE GAME

SCRAT RUSH

After beginning a new location on the world hub, players first control Scrat in a high-speed, side-scrolling mini-game: Scrat Rush. The goal is to get Scrat to the end of the level while collecting as many acorns as possible. An indicator in the HUD keeps track of how many acorns Scrat has. A bonus multiplier counts the amount of acorns Scrat has at the end of the level. The more acorns the player has, the higher the bonus.

PUZZLE/ADVENTURE

After successfully completing a Scrat Rush level, players enter one of several Puzzle/Adventure levels. Manny, Sid and Diego work together to get to the goal of the level. Each character has a separate path and puzzle elements, which are navigated using each of the character's unique abilities. If you lose your way, find the footprint markers to get back on track! Sid's footprints are red, Manny's are blue and Diego's are green. Players can switch the current character at any time by pressing the **L Button** or **R Button**. The current character is represented by a larger portrait in the HUD, while the character that will be accessed by the next **L Button** or **R Button** press is shown to either side.

PLAYER MOVEMENT AND ACTION

MOVEMENT

Sid, Manny and Diego's movements about the world are limited by certain terrain features

SID

- Moves as normal but cannot enter dangerous terrain
- Automatically enters swimming mode when moved into water
- Moves over slippery terrain as normal
- Automatically activates pressure plates when standing on them or passing over them

MANNY

- Moves as normal but cannot enter weak terrain
- Automatically enters floating mode when moved into water
- Slides on slippery terrain until he encounters an obstacle
- Automatically activates pressure plates when he stands on or passes over them

DIEGO

- Moves as normal but cannot enter water
- Slides on slippery terrain until he encounters an obstacle
- Automatically activates pressure plates when he stands on or passes over them, unless he's dashing (see next page)

ACTION

The function of the Action Button (**A Button**) depends on the character selected and his location on the map.

SID

Climb – If facing a climbing wall, he jumps on and climbs up.

Burn – If facing a meltable object, he will light a fire and burn it.

MANNY

Push – Manny will lower his head and enter into a pushing state. When he pushes into push blocks in this state, he can move them.

Toss – If next to Sid and on a toss hotspot, he will toss Sid over the gap.

DIEGO

Claw – Makes a claw attack in the direction he is facing. If facing a breakable object or an enemy, the claw attack will destroy it.

Jump – If facing a gap on a hotspot, he jumps over the gap. If standing on specific hotspots, Diego can also jump onto Manny's back to get across water.

Dash – Diego can dash over pressure plates to avoid activating them. As long as he doesn't stop on a pressure plate, it will not activate - available at dash hotspots.

PAUSE MENU

To access the pause menu, press **START**.

Continue: Resume gameplay.

Sound Volume: Adjust volume of sound FX.

Music Volume: Adjust volume of the music.

Restart Level: Restart player at the beginning of the level.

Exit Level: Exit to the level selection screen.

BOSS BATTLES

To exit each of the five areas, you must do battle with a host of water-borne beasts. Use the **+Control Pad** to move the heroes through the water on their ice raft. Dispatch the boss's small minions with a powerful blast of water from Manny's trunk. But to take out the boss, you'll want to use Diego's sharp claws.

Boss Health Meter

Player's Raft

Hit Points**

**Enemy
Boss**

STRANDED ANIMALS MENU

Along their journey, players will find stranded animals scattered about the maps. There are a total of 80 stranded animals to find and rescue throughout the game. To rescue a stranded animal, simply touch or walk into them on the adventure maps. Some stranded animals are easy to spot, while others will require a little more puzzle solving to reach.

Once a stranded animal is rescued, it is added to the player's Stranded Animal Book, accessible by pressing **SELECT**. Here, a picture of each animal appears along with its name and a biographical sketch.
